prices did exist. The attorneys for the packers excepted to the report and the final arguments were on the exceptions.

The case was opened this afternoon by Attorney General Crow, who appeared for the State, and set out the facts in the case and what the State would attempt to prove.
His remarks were brief and merely introduced the case. He was followed by Attorney Frank Hagerman for the packers, who spoke until nearly 6 o'clock when the court adjourned until to-morrow. NEW POINT RAISED.

Mr. Hagerman supported his exceptions led some time ago, in which he objected mr. Hagerman supported his exceptions filed some time ago, in which he objected to the finding of the Commissioner on the ground that the evidence did not support the decision. His main contention to-day, which is a new feature and important, is that the evidence was entirely hearsay and not derived from persons in a position to know the real facts in the case.

Attorney New for the packers, will follow up Mr. Hagerman and contend that the court cannot form a just opinion from such evidence. He will ask that the evidence be declared not admissable on account of the fact that it is hearsay.

The argument likely will close at noon to-morrow, the concluding argument being made either by Attorney General Crow or his assistant, Mr. Jeffries.

A decision may be expected in the case in the course of about six weeks.

Omega Oil

FOR Weak

Nine times in ten a Weak Back is caused by too much work or too much pleasure or accident.

Nine times in ten the proper treatment is a the proper treatment with Omega Oil. The Oil seems to put strength into a weak back and to drive pain out. Just how this is brought about is hard to explain, because Nature never

tells how or why she does anything. All we actually know about Weak Backs is that they become strong and well again when Omega Oil is applied.

You may be sure of this much: If you use Omega Oil on your back for a week or two, and it fails to relieve you, the trouble must be something serious indeed.

Perhaps the Kidneys are out of order, and then you ought to consult the best doctor you know.

But before doing anything else, have your back rubbed with Omega Oil at least five minutes every night and morning for a week.

I had the misfortune to fall very heavily on the pavement, causing a severe injury to my back. Having read of the wonderful cures effected by the use of Omega Oil, I purchased three bottles of it, and used as directed. I had been suffering four years with a constant pain in my spinal column, but was not benefited by the many remedies tried. I was surprised to find that the bruise from the fall disappeared after using Omega Oil, and the pain which I had suffered from so many years was also removed. I would not be without the Oil in my home.

ARMOUR SHAKES OUT SMALLER TRADERS

Clears Up About \$600,000 While Price of May Wheat Falls Away Two Cents.

IMMENSE LINE IS UNLOADED.

Let-Up in Export Trade and Disappointing News From Abroad Form Ostensible Cause for Break in Market.

Chicago, Jan. 27.-The bull campaign in May wheat received a severe setback to-day and a decline of more than 2 cents was

registered in that delivery. The estensible reason for the decline was the disappointing foreign advices, which caused considerable anxiety among the longs, resulting in the unloading of heavy lines upon an already weak market.

The let-up in the export demand was the principal bear factor, advices from France being to the effect that wheat which has been sold here the rast few days presume been sold here the past few days presum-ably for French consumption was intended for grinding in bond and to be exported

for grinding in boad and caused a weak again as flour.

Lower Liverpool cables caused a weak opening and May was off to 814,231% cents, after a momentary rally the price went up to 81,4382 cents, and there was a gradual decline, which, before the end of the first hour, had brought the price down to 79%

cents.

Late in the day it was reported that J. Ogden Armour, who has been the leader in the built movement, had disposed of from 7,000,000 to 15,000,000 hushels of May wheat during the day, and the inference was that he was endeavoring to shake out the small-er traders, and from the appearance of the market to-day it would seem that he had been successful. 1 OPPOSES MARRIAGE BY NOTARY Janitor of Clayton Courthouse

Writes to Senator Matthews.

REPUBLIC SPECIAL.

Jefferson City. Mo., Jan. 7.—There are thousands of haw y couples all over the United States who know Jerry Curtis, the janitor at the Clayton Courthouse. It is his privilege to steer those who would wed in the great Gretna Green of Missouri to the Justice of the Peace.

His proficiency in picking out those who wish to be married has been heralded over all of the land. He is an expert on the marriage laws. Senator Buel Matthews received a letter from Jerry to-day asking him to work against the bill introduced by Senator Smith of St. Louis giving to notaries public the right to perform marriage ceremonies. ceremonies.

The letter is as naive as is the courtesy of Jerry when he proffers his services to bash-Clayton, Mo., Jan. 22, 1932.—Senator B. L. of Missouri, I protest against the fill, and, as one of your constituents, request you to oppose its passage.

From my experience with marriage and marrying couples, I think I am qualified to speak on the matter. It would be a mistake to let rotaries marry. You might as well give same permission to the familiors of the deems offices, as we see more couples than the notaries and are better able to judge them.

We, who have marriages in charge, are doing very well, and there is no ceason to change, I think there are people interested in this bill who have their own private interests in mind. Ask Gardner and Denny to oppose hill, too. I am yours truly.
